A unique art exhibition by Javon Conaway

Javon Conaway
Founder & Artist
ArtByJCON

Javon takes a magnitude of experiences and tells visual stories about them using art. Javon leverages several years managing retail environments, building teams and fine tuning his knowledge and processes of business acumen to bring a visionary approach to his multifaceted enterprise ARTBYJCON. Javon's approach sets him apart from the modern artist and develops an experience that has quickly evolved into a lifestyle brand.

As a brand, ABJ works to embody the concept that all things are art. Life, color, emotion and creative innovation are what we strive to birth into all that we do. While our identity is rooted in the artwork, the brand expands upon this traditional medium into other avenues with the goal of creating something that is truly unique and encompassing of Javon's full vision, with other retail brands ~~Me Against Society~~ and **ABJ|Labs**.

Urban, inclusive, provocative, disruptive and communal, ARTBYJCON is taking an innovative approach to define what it means to be a working artist in the 21st century.
